Nothing Sticks Like a Shadow Anticipation Guide

Read each statement. Before we read the story, write “A” if you agree with the statement or “D” if you disagree. At the end of our activity, you will reread each statement and again answer whether you agree or disagree.

Before Reading			After Reading	
Agree	Disagree		Agree	Disagree
		The sun is the only thing that makes shadows.		
		I can learn by trying new things and working with others.		
		Light moves and changes based on what it shines on.		

Shadow- a dark area made when an object blocks light

Opaque- objects cannot be seen at all through the material

Translucent- objects cannot be seen clearly through the material

Transparent- objects can be clearly seen through the material

Reflection-when light bounces off an object

Sketch your puppet here. Remember, you must use all materials.
